WHITELEY

HARVESTING

MACHINERY

FOR 1891.

Famous Whiteley "Tricycle" Mower

DO YOU WANT?

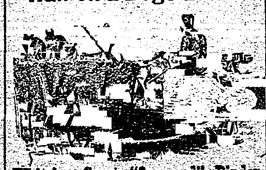
A Mowing Machine that will cut all kinds of Grass, old Stubble, Weeds, Briers or Brush? Then try the new and latest improved

WHITELEY

"Tricycle" Mower.

The Season is favorable for a big Grass Crop. That means money to the farmer provided he has a Mowing machine that can cut the grass, and a good crop means a "down tangled crop." The ordinary cheap, low speed Mowers cannot cut tough clover when it grows thick as

Hair on a Dog's Back.



Whiteley Great "Open-end" Binder

LOOK-OUT! For big tall Grain this harvest. The coming Crop promises to be the heaviest for years past.

GET READY for it and save every head of Grain, for the "waste makes the profit" and the waste can only be saved by harvesting your Grain with a new

WHITELEY

"Open-end" Binder.

BE CAREFUL when buying a grain or grass cutting machine and get a good one, ten dollars less in price will only be

Penny Wise and Pound Foolish.

The Whiteley Machines are warranted to be the best workers, the longest life, lightest draft and most comfortable of all.

It will pay you to see them.

Wellsboro Gazette.

THURSDAY, JULY 2, 1891

FRED K WRIGHT, FRANK CORVERY,
Editors and Proprietors.

THE Democratic State Convention will not be held until some time next month.

GOVERNOR PATTISON has vetoed eighty-seven bills and resolutions, or more than 20 per cent. of the business passed at the recent session.

THE proposition to change the time of holding the Pennsylvania election from the fall to the spring will be presented to the next Legislature. With the exception of the division from the present election, the existing of the question of Lafayette Assembly on the 4th of July, and that of a Washington birthday, there would be no objection to the proposition.

THE following from the Philadelphia *Inquirer* of Monday last is a reproduction of the article which appeared in the Gazette of the week previous:

THERE isn't much danger of a shortage in the postal revenues. The business men of the country are evidently using the mails more than ever before.

THE Democratic Congressional Committee has issued a call for the Democratic National Convention, to be held in Chicago on the 21st day of June, 1892. The basis of representation will be the same as that of 1888.

GOVERNOR CAMPBELL, of Ohio, is to be his own successor. He has no opposition in his canvass for renomination, as there is perfect harmony among the Democrats of the Buckeye State on that point. He does not regard Mr. McKinley as a remarkable strong man and in a recent interview said: "No, I shall not withdraw. No such idea ever entered my mind. It would have been quite as sensible for Grant and Sherman to have retired before Lee and Johnson in 1865 as for me to now withdraw from the field. I am here to stay."

ANARCHIST HERR MOST has been sentenced to a year in Sing Sing prison, and the Chicago *Times* thinks his commitment affords Most an object-lesson. It says: "The action of the New York courts ought to prove very pleasing to Herr Most. In Sing Sing he will find a community organized after his own heart, in which the masses are treated with exact impartiality, eating the same food, dressing exactly alike, and each receiving the same returns for the labor, the whole being governed by a coterie of rulers placed in charge of the community to see that its rules are rigidly enforced."

THE Stalwart Republicans of Philadelphia are now after Quay's scalp. In other words they have joined the great army of mugwumps, simply because they want to get a chance to boss the machine politics of the State. There is no principle involved in this revolt, the kickers believing that the time has come to advocate a change in party methods. They propose to effect an organization through the State and to put in nomination independent tickets, stalwart mugwumps when the action of county conventions can not be prevented. The State is in a bad way indeed when the stalwarts become as much interested in its political methods as an independent organization.

All members, to which the State is entitled under Act of Congress, will be chosen by the State at large. In vetoing the bill Governor Pattison gave his reasons at length and fully exposed the partisan attempt on the part of the Republicans to gain Congressional representation at the expense of the Democratic party. One reason assigned is as follows: "The present bill is objectionable first of all, in that it is not an apportionment based on the census of 1890, with the modification that of the several States members-at-large to Pennsylvania one is assigned to Philadelphia and the other to Allegheny county. With this exception, and the division from the present district, the existing of the counties of Lafayette Assembly on the 4th of July, and that of a Washington birthday, there would be no objection to the proposition. The following from the Philadelphia *Inquirer* of Monday last is a reproduction of the article which appeared in the Gazette of the week previous:

THERE isn't much danger of a shortage in the postal revenues. The business men of the country are evidently using the mails more than ever before.

The State is in a bad way indeed when the stalwarts become as much interested in its political methods as an independent organization.

...ER, according to an order of ...master General Wanamaker, promotions in this department will only be made as the result of competitive examinations, provided, of course, that all those undergoing such examinations are good Wanamaker Republicans.

THE net supply of gold coin and bullion in the United States Treasury amounted on June 10th to $151,333,339, or $63,890,065 less than the supply at the same time last year. The Philadelphia *Record* says the silver policy and the extravagance of the Billion Congress have begun to show their effects very visibly.

PHILADELPHIA Democrats believe that the operation of the new registry law will be very beneficial in that city, as it will show a big difference between the real and the most Republican vote in that city. Can it be possible that Republicans in moral Philadelphia have been adopting the tactics of Tammany Hall in rotten New York?

As was to have been expected the case against the directors of the New Haven Railroad (N. Y. C. & H. R. R.) for violating the law in permitting car stoves to be used fell flat in New York last week. All the directors were discharged and President Clark alone was tried and acquitted. As the case now stands no one was to blame for the terrible tunnel accident last Winter by which several persons lost their lives.

GOVERNOR CAMPBELL, of Ohio, is to be his own successor. He has no opposition in his canvass for renomination, as there is perfect harmony among the Democrats of the Buckeye State on that point. He does not regard Mr. McKinley as a remarkable strong man and in a recent interview said: "No, I shall not withdraw. No such idea ever entered my mind. It would have been quite as sensible for Grant and Sherman to have retired before Lee and Johnson in 1865 as for me to now withdraw from the field. I am here to stay."

GREAT FLOODS IN IOWA.

Fourteen Counties Deluged and Several Lives Lost.

Northwestern Iowa was visited by terrific rain storms last week, causing great losses and many casualties. It appears that the deluge covered a territory fifteen counties in width along the western border of the State and five counties in length beginning within one tier of counties from the northern boundary of the State and extending southward. The section of country where the storm was most severe is traversed by numerous railroads. Several hundred miles of track and many bridges were swept away.

A dispatch from Cherokee says: The persons of the Johnstown flood were in part repeated in this place on Wednesday. Seventy-five houses were carried out of sight in a Niagara-like torrent, and from one to five families were driven from their homes. A terrible scene was witnessed, and the wind added a hurricane to what was already a terrible deluge. The storm, which began Tuesday night, appears to have been a very severe one throughout western Iowa, fully ten miles in diameter, with their keen in the centre. Some [illegible] apparently without an [illegible] in the West [illegible] engaged in the crops are a total [illegible] All [illegible] and [illegible] it of [illegible] and [illegible] green [illegible]. By that [illegible] with [illegible] Senate [illegible] Hardsley, the [illegible], must go to the [illegible].

[illegible] CHER, according to an order of [illegible]master General Wanamaker, promotions in this department will only be made as the result of competitive examinations, provided, of course, that all those undergoing such examinations are good Wanamaker Republicans.

THE net supply of gold coin and bullion in the United States Treasury amounted on June 10th to $151,333,339, or $63,890,065 less than the supply at the same time last year. The Philadelphia *Record* says the silver policy and the extravagance of the Billion Congress have begun to show their effects very visibly.

PHILADELPHIA Democrats believe that the operation of the new registry law will be very beneficial in that city, as it will show a big difference between the real and the most Republican vote in that city. GOVERNOR CAMPBELL, of Ohio, is to be his own successor. He has no opposition in his canvass for renomination, as there is perfect harmony among the Democrats of the Buckeye State on that point. He does not regard Mr. McKinley as a remarkable strong man and in a recent interview said: "No, I shall not withdraw. No such idea ever entered my mind. It would have been quite as sensible for Grant and Sherman to have retired before Lee and Johnson in 1865 as for me to now withdraw from the field. I am here to stay."

ANARCHIST HERR MOST has been sentenced to a year in Sing Sing prison, and the Chicago *Times* thinks his commitment affords Most an object-lesson. It says: "The action of the New York courts ought to prove very pleasing to Herr Most. In Sing Sing he will find a community organized after his own heart, in which the masses are treated with exact impartiality, eating the same food, dressing exactly alike, and each receiving the same returns for the labor, the whole being governed by a coterie of rulers placed in charge of the community to see that its rules are rigidly enforced."

THE Stalwart Republicans of Philadelphia are now after Quay's scalp. In other words they have joined the great army of mugwumps, simply because they want to get a chance to boss the machine politics of the State. There is no principle involved in this revolt, the kickers believing that the time has come to advocate a change in party methods. They propose to effect an organization through the State and to put in nomination independent tickets, stalwart mugwumps when the action of county conventions can not be prevented. The State is in a bad way indeed when the stalwarts become as much interested in its political methods as an independent organization.

THE Democratic State Convention will not be held until some time next month.

GOVERNOR PATTISON has vetoed eighty-seven bills and resolutions, or more than 20 per cent. of the business passed at the recent session.

THE proposition to change the time of holding the Pennsylvania election from the fall to the spring will be presented to the next Legislature. With the exception of the division from the present district, the existing of the counties of Lafayette Assembly on the 4th of July, and that of a Washington birthday, there would be no objection to the proposition. The following from the Philadelphia *Inquirer* of Monday last is a reproduction of the article which appeared in the Gazette of the week previous:

THERE isn't much danger of a shortage in the postal revenues. The business men of the country are evidently using the mails more than ever before.

THE Democratic Congressional Committee has issued a call for the Democratic National Convention, to be held in Chicago on the 21st day of June, 1892. The basis of representation will be the same as that of 1888.

GOVERNOR CAMPBELL, of Ohio, is to be his own successor. He has no opposition in his canvass for renomination, as there is perfect harmony among the Democrats of the Buckeye State on that point. He does not regard Mr. McKinley as a remarkable strong man and in a recent interview said: "No, I shall not withdraw. No such idea ever entered my mind. The State is in a bad way indeed when the stalwarts become as much interested in its political methods as an independent organization.

DANGER FROM LIGHTNING.

What to Do and How to Do During a Thunder Storm.

We extract the following from a timely article in the Philadelphia *Times* about danger from lightning, and as it may be of use and perhaps even save life somewhere we print it for the public benefit. This is the season when thunder storms are usually most frequent and severe, and every reasonable precaution should be taken to protect both life and property from the lightning stroke. Especially should barns be carefully protected, as the cases caused by hay [illegible] packed in the mows are highly inflammable, and instantaneous combustion often follows an electrical discharge on or near a barn. Barns are also more exposed because of the general absence of trees around them. Many houses have been saved from a discharge of electricity by the proximity of high trees. Indeed, there is almost entire safety from lightning to any building that has the full grown Lombardy poplar tree close to it, with its countless points of attraction in its upward pointed leaves.

While there is not absolute safety from lightning in even the best precautions, there is really very little danger to any building that is protected by properly constructed lightning conductors. The best conductor is the copper cable. It is more costly than iron, but it is well worth the difference.

In the absence of conductors to protect a house, and indeed under all circumstances, it is wise to avoid exposure to damp currents during a thunder storm. As all currents of air are heavily charged with dampness during such storms, they become conductors of lightning in the absence of stronger attraction, such as a good lightning rod; and even with good lightning rods, the possibility of an excessive discharge of electricity that would make part of it seek other conductors, is a strong argument in favor of closed doors and windows during electrical disturbances. It is seldom that a lightning stroke enters a house at all, unless by some damp air current caused by an open door or window, or by a chimney. Many buildings receive electric strokes without penetrating the inside at all and without even serious shock to the inmates.

Very many people suffer seriously from their ungovernable fear of lightning. It is not unreasonable to fear the lightning stroke. Its sudden visitation is well calculated to excite alarm, and its often serious and sometime fatal injuries to life and property intensify apprehensions. There is danger in the thunder storm, however, and it is always wise to take every reasonable precaution against it. Good lightning rods are always wise, and there is always wisdom in closed doors and windows, and always foolhardy exposure in taking refuge under isolated trees during storms.

THE BARK SUPPLY.

Interesting Items About the Pennsylvania Hemlock Belt.

The *Shoe and Leather Reporter*, of Boston, publishes an interesting interview with Mr. S. S. Burns, of Olean, regarding the Pennsylvania hemlock belt. Mr. Burns says: "I went into the forests of standing timber in the Pennsylvania forests, using principally Mr. Ryan, Porter Warren Tioga Lycoming, Cameron, Elk, Forest and Jefferson counties. In this section, says Mr. Burns, although the last year there was not more than two-thirds of the normal amount of bark peeled on account of the backwardness of the season. The usual amount of bark peeled and consumed in this section is estimated at from five and [illegible] cords. [illegible] think the use for the present year will be much greater than it was last year.

THURSDAY, JULY 9, 1891.

INDEPENDENCE DAY.

Sound the loud gun! Play the pyrotechnic!
Let the jubilous Jingles
For this is the Fourth of July.

No committing of suicide shall mark our spree.
No stern policeman fright our bully boys.
This is the day to make the welkin ring.
As our forefathers made their breakfasts quake.

Go to! Shh—! Is it not written in the Declaration
That school begotten quality is only
Dispensed to a select few
Shall prove that patriot fourths now vent in
noise?

Let orators by millions smite the day!
And with their mighty words of truth and fire
Invest the air so with the spirit of the time
And right to light—as to [illegible] away.

VENDETTA;

—OR—

THE STORY OF ONE FORGOTTEN.

BY MARIE CORELLI.

CHAPTER XII—CONTINUED.

[illegible] is soon done. The countess [illegible] to say—"

"You saw her last night?" I interrupted him.

He flushed slightly. "Yes—that is—for a few [illegible] I was [illegible] me to say good-by, as I am [illegible] for Rome."

"Very odd,—very unusual—but a sufficient one for me. Pray let us talk of something more interesting,—your pictures, for instance. When may I see them?"

"When you please," he answered readily,—"though I fear they are scarcely worth a visit. I have not worked much lately. I really doubt whether I have any that will merit your notice."

"You underrate your own powers, Signor," I said with formal politeness. "Allow me to call at your studio this afternoon. I have a few minutes to spare between three and four o'clock if that time will suit you."

"It will suit me admirably," he said, with a look of gratification;—"but I fear you will be disappointed. I assure you I am no artist."

I smiled. I knew that well enough. But I made no reply to his remark,—I said, "Regarding the matter of the jewels for the Countess Romani,—would you care to see them?"

"I should [illegible]," he answered; "they are unique [illegible] thing!"

"If [illegible] and going to [illegible] apartment of the room [illegible] take a case [illegible] there [illegible] case [illegible] shall [illegible] order [illegible] of [illegible] with [illegible] ins[illegible]

[illegible] any greeting you may desire to send."

"Oh, it is no greeting," I continued calmly, noting the various signs of embarrassment in the man with a careful eye. "It is a mere message, which, however, may enable you to understand why I was anxious to see the young man who is dead. In my early manhood the elder Count Romani did me an inestimable service. I never forgot his kindness (by memory which extraordinarily sanctions all both benefits and injuries)—and I have always desired to repay it in some suitable manner. I have with me a few jewels of almost priceless value,—I have myself collected them, and I reserved them as a present to the son of my old friend, simply as a trifling souvenir, or expression of gratitude for past favours received from his family. His sudden death has deprived me of the pleasure of fulfilling this intention,—but as the jewels are quite useless to me, I am perfectly willing to hand them over to the Countess Romani should she care to have them. They would have been hers had her husband lived,—they should be hers now. If you, Signor, will report these facts to her, and learn her wishes with respect to the matter, I shall be much indebted to you."

[illegible] nted to c[illegible] you," re[illegible] rising at the [illegible] "I [illegible] [illegible] you [illegible] [illegible] [illegible]
